ABOUT US

We are a Apparel manufacturing and Trading company Founded 2005 in Sri Lanka and today Apparel Nest is a global company that operates in five countries. USA, Sri Lanka, Vietnam, India and Madagascar.

USA office is handling our global sales and marketing team and Vietnam is our research and development hub for global market and also Vietnam hub handle the global supply chain and manufacturing units providing all the technical and QA supports. We have allocated separate merchandising and QA team for each countries to have better control in Production, quality and on time delivery.

We are designing, sourcing, manufacturing, and marketing apparel throughout the United States and Europe countries and we have cultivated a strong portfolio of many private and owned brands which are the basis of our company and drive our business.

We manufacture and sell over 20 customers with 50+ individual doors in USA and Europe. We strongly focus on the retailer, the customer and total brand management. Through our experience global team.

We work directly with each retailer to ensure that our product are true to their heritage, resonate with the consumer and maximize profit and sales. **Apparel Nest** strives to be the best and deliver beyond all expectations.

OUR VISION

Makes things possible,

- ❖ Whether you're looking to create private label clothing or established company.
- ❖ We can help. We function as your in-house vertical supply chain specifically built to give you more flexibility. Our technology brings the process of apparel manufacturing all under one roof, so you can grow, test new markets, and focus on your business.

OUR APPROACH

Work together.

- ❖ Design, patterning, sourcing, samples, fit development, production oversight, and logistics. All transparent, collaborative, and offered at competitive prices. We help you take your concept to delivery in 16 weeks or less.

OUR COMMITMENT

Deliver the correct product on time.

- ❖ We take full responsibility for your product from beginning to end. If there is ever any error, there will be no questions. It's our job to deliver a fully approved product, on time and at the right cost.
- ❖ Our innovative and modern software platform helps manage your production timeline in great detail, to ensure you receive your product when you need it in the quality you were expecting.

Research

We believe that Research & Development is the cornerstone of any collection.

Our international research and development (R&D) teams work with all international suppliers for source and develop the latest fabrics, ahead of the market.

We work directly with our extensive networks, we are well placed to execute our customer's creative vision and competitive price.

Design & Development

Our designers travel the world for inspiration, looking for fresh ideas and novel details to bring our customer's designs to life.

By using latest technology our aim is to increase efficiency, shorten lead times for on time delivery with customer expected quality.

Manufacturing

Our Experience Production and planning team work with vendors to control the production and delivery on time and guide all the vendors to follow up customers' requirements from the order confirmation.

Introduce new technical methods guidelines to improve productivity and quality.

Share new technology and systems with all the vendors to improve productivity.

Arranging training program for all vendors production and QA teams to achieve the goal

Quality control

APPAREL NEST is committed with all our customers to supply highest standards of quality, on time delivery and safety. Our QA team works closely with production and sourcing teams, and each vendor and manufacturing partners to bring this commitment to life.

Each country have allocated quality control team to follow up total quality proses from raw material to final product and Quality Assurance team starts working on the technical requirements from the sample stage.

We ensure that each detail is taken well care of and also we provide our partners with the visibility and control needed.

Our quality assurance team are led by experienced technical manager who will not only control the quality at the productions sites.

Social Compliance & Safety

Apparel Nest ensure that social compliance and safety with all our vendors conducting compliance audit every 6 month by our social compliance manager and also health & safety QA Short Audit every month conducted by all Apparel Nest QA staff to report the presence of critical safety violations at the manufacturing units.

Sustainability

We believe that sustainability should be integrated into all aspects of our business. It is a continuous process, and we learn every day and are committed to achieving the highest levels of social and environmental standards in our business. Sustainability focuses on meeting the needs of the present without compromising the ability of future generations to meet their own needs. Being Fashion is the largest polluting industry in the world, Apparel Nest Committed to develop sustainable Goals into this industry.

Delivery

Our knowledge and network along the entire global supply chain and retail industry gives us unique insight into creating long-term collaborative solutions for our customers.

We're not just about moving things from one place to another. We analyze each customer's needs, anticipate challenges, design options and set up contingency plans so our customers never have to worry about the journey.

Our support

Professional operational support from R&D, Supply chain, Manufacturing Logistics, Quality and Compliance, HR and IT specialists. The teams in those fields are not only working closely with each other but also with their counter parts from our business partners.

This ensures that operations are actually accommodating the individual needs or processes of our customers in most efficient ways and by this adding value to the supply chain.
